

**Anthony Joseph**  
**Store Design Specialist at Staples Canada**

Anthony has over 20 years of experience and education in architectural technology, building inspections, and project management. Currently at Staples Canada, Anthony manages all the design aspects for new builds, renovations, and warehouse space allocation in retail.

Prior to joining Staples, he was an Architectural Design Consultant for M-Tec and Mike Niven Interior Design which focused on high and low-rise residential design. Working in a diverse range of roles and environments has helped Anthony understand the needs of colleagues, customers, and clients.

Anthony's latest achievement has been receiving recognition for an award by the Retail Council of Canada for In-Store Experience and Design, for Staples new transformational store design.
